National Assessment & Accreditation Council

Foreword

Tunga Mahavidyalaya has reached another milestone, the first ***reaccreditation*** by NAAC. The college was assessed and accredited by NAAC in February 2005 for the first time and was awarded 'B' grade. Since the first assessment the institution has grown not only in years but also in strength, maturity and ability. We were made aware of our strengths and weaknesses by the visiting peer team and we were also helped by them in charting the road ahead. We have earnestly tried to follow the suggestions made by the peer team during the first assessment.

Now is the time for another stop for introspection and reaffirmation of our commitment to good education. We know very well that new quality initiatives have to be continuously built into the system to deliver what we wish to do. And, the pressures of the rapidly changing society make it imperative that we offer truly valuable education to our students. The reaccreditation process would definitely help us in achieving this.

The self-study report has been prepared after careful processing of the necessary data, and after detailed consultation with the staff members, both teaching and non-teaching. We believe that the report reflects the actual state of affairs in the institution.

The reaccreditation exercise would enhance our motivational level and bring a new wave of enthusiasm, it is hoped. We are eagerly looking forward to it and we are submitting this self-study report for scrutiny by the National Assessment and Accreditation Council.

Vision

To march towards becoming an Institution of excellence providing Higher-Education programs for the students of the rural Malnad region based on the needs, values and career demands of a globalised world.

Mission

- To create opportunities for pursuing various programs by introducing new courses /upgrading existing courses
- To nurture a spirit of cooperation and competition among students while focusing on their academic, social and spiritual development
- To create confident, aspiring individuals who are aware of the wealth of tradition
- To initiate improvements in infrastructure facilities and learning resources needed for imparting quality education
- To develop research culture among faculty members/ students, keeping in mind the local needs and exigencies
- To keep abreast of the developments in different areas of knowledge through faculty development and training programs
- To progressively evolve systems of interaction among all stake-holders

Acknowledgements

We wish to place on record our sincere thanks to:

- NAAC, Bangalore, for providing necessary guidelines,
- College Development Council, Kuvempu University
- Department of Collegiate Education, Government of Karnataka.
- Tunga Vidyavardhaka Sangha, our management body, for their whole-hearted support and encouragement,
- The staff members for their involvement in the preparation of the SSR,
- Dr. M. M. Sattigeri, Belgaum, for his inspiring and informed interaction with us about the process of quality management.

Our College Emblem

Preface

Setting:

Tunga Mahavidyalaya, Thirthahalli is situated at the foot hills of Anandagiri which overlooks the rivulet Kushavathi gently flowing into the river Tunga below and the endless hill range of the Western Ghats beyond. The uniqueness of our college comes from more than its serene, scenic setting. Its uniqueness is embodied in its origin and the history of its evolution.

Intellectual:

Thirthahalli is a place distinct in itself being the one Taluk that has given birth to two jnanapeetha awardees, the Poet Laureate Kuvempu and Dr. U.R.Anantha Murthy: besides a host of other important writers like Sri Poornachandra Tejaswi, Sri.S.V.arameshwara Bhat, Dr.Ha.Ma.Nayak, Smt. M.K. Indira.

The Socialist leader Sri Shantaveri Gopala Gowda, the ex-C.M., Sri Kadidal Manjappa, the eminent Jurist Justice N.D. Venkatesh, & world renowned cine director Sri Girish Kasaravalli, artists B.M.Jagadish and Chi. Su. Krishnashetty and Sri B.S Vishwanath of the co-operative movement are some of the eminent personalities of this Taluk.

Places around:

Being in the heart of the Western Ghats, one of the eighteen biodiversity hot spots in the world, the taluk is known for its scenic beauty and the wealth of its biodiversity. Mythology and history coalesce in its past. Thirthahalli derives its name from Rama Thirtha, the place where the sage Parashu Rama was finally able to wash the blood of his mother sticking to his axe with which he murdered her, and wash off the sin of matricide. Kavaludurga, the former head quarters of this taluk, known for its hill-fort built by Chennamma of Keladi Dynasty- Agumbe, the Cheerapunji of Karnataka, known for its world famous sunset- Kundadri and Humcha (the jain Piligrim centers - the former a majestic hill)- Kavishaila - where there is a stone-henge like monument for our national poet Kuvempu-

Ambutirtha, the birth place of the river Sharavathi- are some of the important places in the vicinity.

Educational scenario: It is indeed a paradox that such an otherwise rich taluk should remain educationally backward till the late 1960's. There were only two high schools in the entire taluk and the Taluk Development Board started four to five High Schools in the 60's. There was no scope for Higher education in the taluk and only the males from rich families could afford to go to far off places seeking higher education. This left a vast section of this society, a majority of its men and women educationally backward. At that juncture a few concerned citizens (Sri Kasaravalli Ramakrishna Rao, Dr. B.N.Rangappa, Dr. K.Rama Bhat, Sri H.V.Ramaiah, Sri Purushothama Rao, Sri K.Gangadhar and others) founded the Tunga Vidyavardhaka Sangha with a **vision** of "SOCIAL TRANSFORMATION THROUGH HIGHER EDUCATION".

The Tunga Vidyavardhaka Sangha in association with National Education Society, Shimoga established the 'First Grade College of Arts And Science' at Thirthahalli in the year1967.

Its mission was:

The Mission: *"To make quality higher education accessible and affordable for all in this educationally backward rural region of Malnad, to develop higher awareness among the youth and to create opportunities for improvement of the self and the Society".*

Ever since then, the College has striven to make its vision come true and all the developmental activities and programs are in tune with its mission.

The Management: Tunga Vidyavardhaka Sangha which had sought the technical collaboration of National Education Society in 1967 for starting a college became independent in 1977. Since then there have been changes like the retirement of old members and the

induction of new members. But there is no change in their commitment to the cause of higher education for the needy. The management committee consists of the aged and the young and utilizes the wisdom born out of the experience of age and the dynamism of youth. While being steadfast to the cherished values of higher education it also keeps on innovating to make higher education keep pace with the changing needs of the society in the era of Globalization. The members are drawn from different walks of life viz., trading, farming, legal and medical professions. But they are united in their goals and mission. We are proud to say that Dr. U.R.Ananthamurthy, a Jnanapeetha Awardee and the eminent Jurist Justice N.D.Venkatesh (the Ex Chief Justice of the High Court of Karnataka) are on the academic advisory body of the management.

Courses offered: The College at first offered B.A and B.Sc. Courses and later started the B.Com Degree course. Considering the demand for software professionals, the B.C.A. course was commenced in 2000-01. It was a composite college for thirty five years offering PUC and Degree courses. Following a G.O. the PUC wing was separated from the college to form a separate PU College in 2001-02. The management studies wing was added to our repertoire and we started offering the B.B.M. program in 2006. A number of non-formal, short-duration courses are available to interested students in areas like Communicative Skills in English, Horticulture, Cartooning, Painting, Dramatics etc. There are immense opportunities for extra-curricular activities and for participation in NSS, NCC, Sports, and BGVS. Etc. Workshops, seminars and special lecturers are often held, all in line with the avowed mission of the college.

Infrastructure: The College was functioning in a vacant sandal depot, near the Taluk Office in the town, initially. It has now come a long way

from its place of birth, a two room sandal koti to the sprawling 32 acre campus in Anandagiri, spreading the sweet sandal fragrance of education all around on its march. Rome was not built in a day. So also our Tunga Mahavidyalaya, from 1975, the year in which the College was shifted to the new campus, has grown in stages acquiring more and more buildings and facilities. Now the College with its spacious lecture halls, laboratories, an independent library with its spacious and distinctively styled reading room, a unique and grand Silver Jubilee Auditorium that brings to mind the Greek amphitheater, an indoor stadium for games and a sports ground, a well-furnished canteen ..... and the list remains inconclusive . All this was possible with the benevolence of philanthropists, hard work of the management and contributions from the students and staff.

The College has a full-fledged and committed faculty known for its pursuit of excellence. They are a hive of busy bees that have made their mark with participation in national and international seminars and as resource persons in UGC sponsored Refresher Courses, published articles and books, besides being active in many social, cultural and environmental organizations. Extensional activity in the area of literature and science and social service is a part of their routine. However their duty to their students at the college and commitment to its mission stand foremost in their mind.

The students:

The faculty has a daunting task, which they have taken up as a challenge. The house of God refuses admission to no one. So it is with our College. Even a student with the minimum of 35 marks in a subject, scored in any number of attempts, is not denied a seat. A good majority of our students are first-generation learners and it is our clear understanding that denying them a seat amounts to betrayal of our mission. However, we are proud to say that enrolling such students we have been able to get consistently good results, much above the

Kuvempu University average. Our students have made us proud by securing ranks almost every year in the recent past for our college. The teachers have many challenges like catering to a heterogeneous body of students, to motivate them inside and outside the class room and instill in them a spirit of quest for knowledge and a competitive temperament. Their efforts have borne fruit in that a number of our ex-students have made their mark in various walks of life.

If educational backwardness is one limitation of our students, the other limitation is their economic backwardness. A good majority of them come from the economically weaker sections, from the families of agricultural labourers, hotel workers, petty businessmen etc. Our experiments with fully or partially self-financing courses have not been very encouraging.

Welfare schemes: Besides a number of scholarships and free studentships, the students are also helped by providing them with financial and material aid. A Students' Welfare Fund is created with contributions from the staff. A unique scheme of Mid-day meals helps poor students who have to come to the college from far off villages. About 125 boys and girls are beneficiaries of this scheme. This, perhaps, does not find a parallel in many other institutions.

Towards re- accreditation: After the first NAAC accreditation in 2005, the institution was taking good strides forward. We started offering B.B.M. program to our students on a self-financing basis as the government had stopped funding new courses and filling new vacancies long ago. It is very difficult to run self-financing programs as more than half of our students are from the weaker sections of society. Though ours is an aided college, the fee charged for the facilities provided is minimal and almost on par with that of government colleges. The management is finding it hard to strike a balance between developmental projects and resource management. To add to our woes, the government

opened another degree college here in 2007 which is attracting a large number of students. And the number of students joining our college is dwindling year by year. The public opt for the government college because it is located in the heart of the town and offers free education for ladies. People also know that the government pumps funds for the development of government colleges without delay.

Thus we are at the cross roads, faced with difficult choices. But we are aware that quality and quality alone would come to our rescue. And the re-accreditation process should give us the impetus and boost to gear up to the challenges. We are hopeful that the fruitful interaction with the peer committee of NAAC would fill us with greater strength and wisdom.

The years after the first accreditation

Tunga Mahavidyalaya was first accredited by NAAC with 'B' grade in Feb 2005. The peer committee visited our college in Dec.2004 and interacted with the principal, faculty members, students and management members. The peer committee appreciated our efforts in providing education to the people of rural Malnad, especially the deprived classes. It had taken note of the congenial atmosphere for learning, the good infrastructural facilities, the quality and commitment of the teaching faculty and the good support services available. It also placed on record their admiration for the management members. In its report, the peer committee observed that there was ample scope for improvement, in areas like teaching-learning and research/consultancy.

The peer committee had noted that:-

*The college did **not** have facilities for using ICT in the class rooms.

*There was **no** provision for assessing the students' knowledge and skill immediately after admission

*Minor or major research projects were **not** undertaken

*The library was **not** interconnected with IUCAA or INFLIBNET

*Teachers were **not** using computers

*The college did **not** have an employment cell

* The Alumni association **needed** to be strengthened

* The college did **not** have an MOU with industries or research Organizations

* There was **no** mechanism to check the work efficiency of the clerical staff

* There was **no** grievance redressal cell

The peer committee had also made the following suggestions:

- Introduction of PG courses
- Developing a research centre in collaboration with areca farmers' association
- Establishing a gymnasium
- Availing grants for conducting seminars and research projects
- Research culture to be developed in the campus
- Women empowerment programs to be undertaken
- Establishing a coaching center for competitive exams

Corrective/developmental measures initiated

Acting on the observations and suggestions made by the NAAC peer committee, the institution initiated/implemented these measures:--

- *A new seminar hall was built and equipped with LCD projector, speakers and accessories for conducting multi-media classes*
- *Steps were taken to conduct ability/skill tests for new entrants*
- *One minor project was sanctioned by the UGC to the dept. of Chemistry and it is almost complete: Our teachers got associateships at the Indian Institute of Advanced Studies, Shimla, and carried out minor projects: proposals for new minor research projects have been sent to the UGC*
- *The college has subscribed to INFLIBNET and students and teachers are members of the E-readers club under the N-LIST project*
- *Teachers are using computers for classroom teaching and preparing lesson plans; Many teachers have bought desk-top and lap-top computers*
- *An employment and career guidance cell was established with a faculty member acting as placement officer*
- *Alumni association is playing a more active role: it has been collaborating with the college in conducting many events, esp. sports and cultural events*
- *We have contacted the government Horticulture Research Station for doing joint research in the area of areca cultivation*

- *A mechanism for checking the efficiency of the clerical staff was devised and the internal quality audit committee is working on it*
- *Grievance redressal cell started functioning and is working well*
- *PG courses could not be commenced immediately because of paucity of funds and lack of students in the science and humanities subjects; however, we are trying to start M.Com in the coming years and the process has started*
- *Multi-gym equipment and other related facilities were procured and we have a full-fledged gymnasium in the campus*
- *We have been receiving UGC grants for organizing seminars and research projects*
- *The women empowerment committee is active and helping girl-students in many ways*
- *The research committee is motivating students to take up small projects with funding from the college*
- *Coaching center for competitive exams could not be established because of poor response from the public*

Students are encouraged to use the internet as a knowledge source. We conduct preparatory exams for optional students in addition to the routine tests.

Profile of the Department of Sanskrit

The Department Of Sanskrit of Tunga Mahavidyalaya, Tirthahalli was established in the year 1979.The first person to be appointed for the post of Lecturer of Sanskrit in this Department is Mr. B.C. Ramesh.

Much before the establishment of the department, there were some students opting for the language and they had to study on their own, as there were no teachers appointed. It was on the demand of such students that this department came into existence.

For a brief period of one year, the department had a second lecturer on part-time basis. Mr.K.L. Suryanarayana Jois served the department. Since then the Department has been mainly a single man department headed by Mr. B.C.Ramesh, who is serving now as an Associate Professor.

Due to two main factors, the Department of Sanskrit suffered a setback which resulted in less number of students opting for the subject. Firstly it was the Gokak agitation which aimed at restoring Kannada the State language, its rightful place. Secondly the very process of Globalization dealt a death blow to the language hitherto suffering in the hands of the politicians. So the number of students tapering down each year is no indication of the performance of the department.

The Department of Sanskrit has done whatever it could do within its reach, effectively. It is one of the first few departments in the college which opened itself to the process of modernization. It has equipped itself with the knowledge of Computers and has been using it to the extent possible in the process of classroom teaching. It is no mean achievement that the department has been registering good results every year without any failures. The department has had not dropouts.

Within its limited capacity, the department of Sanskrit has been serving the institution in all its endeavors. Apart from the regular academic activities, it has participated in administrative duties. Whether it be a State level seminar conducted by a department or a Sports even hosted by the college, the department has lent its full support to the college.

The department has a laptop full of modern features, for the use of teaching purpose. The department, through its head is actively engaged in training some of

the interested teachers in the use of computer technology in classrooms. The department is fully equipped for the use of Word, Power point and One Note from Microsoft Office Suit-2010.

The Department has offered its service to the interested institutions around in training students in 'Bird-watching' and Origami the paper-art which is fast acquiring the status of a scientific art. The Department is actively involved in the propagation of film culture among the college students by forming a film club at the college level. The department was continuously and actively involved in different committees constituted by the college for the smooth running of the administration. The department has actively adopted modern teaching methods and it is mainly the architect in acquiring of LCD projector and a laptop for the college. It has put forth significant effort in the college having a web-site recently.

Dept. of ECONOMICS

PROFILE OF THE DEPARTMENT

A brief introduction to the department :

Economics a science that is both "light giving and fruit bearing" has been attracting the largest readers all over the world. In our college too, as elsewhere, it is a common subject offered to all combinations of study to B.A. students. As such the department of Economics meets all the students of Arts faculty in our college.

The history of the department dates back to 1967-68 when the college was started . Mr. Nagaraj and Mr. Babu Singh were the lecturers in the department up to the year 1970. On resignation of Mr. Babu Singh in 1970 Mr. V.R.Hegde was appointed in his place. The credit of developing the department should go to these two persons. On account of increase in workload Mr. H.R.Krishnaiah Gowda was appointed as lecturer in 1980 who joined the Government Service. Lateron Mr. Nagaraja joined another college in 1986 as principal. On account of vacancy so created by Mr. B.T.Ramappa, present HOD, and Mr. M.S.Manjunatha were appointed. Still some excess of workload was left over. Thanks to Tunga Vidyavardhaka Sangha for arranging full time and part time teachers whenever vacancy arose. Government has deputed Mr. G.Suresh to fill up one full-time vacancy in the department. Mr. E.L.Premachandra who has been working full-time teacher is working as part time teacher during 2009-10 in place of Dr. M.S.Manjunatha, deputed on government service.

New Courses: In view of equipping the students to changing requirements "Economics of Development" an optional paper was introduced as back as 1984. A new combination "Sociology, Economics and Computer Application" in English medium was introduced in 2001-02. It is now changed over to Kannada medium to

help the rural students since 2002-03. In the year 2004 again a new combination of "History, Economics, English" was introduced to help the students study English as an optional subject.

Department Library: With a view to help the students to read more & more books and to get quick reference materials to teachers departmental library is available. The library consists of 200 books and it is used effectively.

What are the sanctioned teaching staff strength and the present position?

Sanctioned: 02 Filled: 02

The department has been actively conducting various programmes through "Samajashastra Vedike", which was inaugurated on the occasion of the University level Seminar held on 27th and 28th oct 2004 by then Vice chancellor of Kuvempu university, Prof. Chidananda Gowda.

During 2005-06 two special lectures, 2006-07 one special lecture, 2007-08 two special lectures were arranged for the Sociology students to enhance their academic standards. Tests, assignments and class seminars are also routinely arranged for the students. Every semester, for all the First, second and final year students, the first few classes were devoted to Bridge course.

Department of HISTORY

The department of History was started with the inception of the college in 1967.

For a few years an ad-hoc arrangement was made to teach History in the beginning. In the year 1973 Mr. Thimmaiah Naidu was appointed as a lecturer in History on permanent basis. With his entry into the department the systematic teaching of history started in the college. As the number of students studying history increased in the college, in 1977 Mr. N.Nanjundappa was appointed as a lecturer but, he left the department and college in 1982 on being selected for Karnataka Administrative Services.

In 1981 Mr. Thimmaiah Naidu got selected to pursue research on Faculty Improvement Programme (FIP) funded by the UGC. He successfully completed his research work on the cultural contributions during the reign of Chikkadevaraja Wodeyar and got his Ph.D. in 1987 from the University of Mysore. In the meantime with the development of the Institution, the study of History became more serious and popular and now this subject is being studied in the combinations like HEP, HES, HEK, and HEE. In 1983 Mr. D.S Somashekhar and Mr. Surya Naik were appointed as lecturers in History on permanent basis in the department. Dr.S.T.Naidu worked as the Head of the Dept for a long time till he assumed the charges as the principal in 2007. Presently, Prof. D.S Somashekhar is the head of the department since 2007.

The department colleagues realized the importance of equipping the students with more useful information for the proper and deeper understanding of the subject and therefore, a History Forum known as 'Ithihasa Mantapa' has been established in the college with special stress on local history. Distinguished scholars from various disciplines have been invited from different places to enlighten the students under the banner of 'Ithihasa Mantapa' in which the students have taken initiative and shown more eagerness and interest.

Apart from regular internal assessment tests under the semester system all the teachers in the department have been periodically conducting feed back tests and asking the students to write home assignments. The seminars that the students conduct in the class rooms under the guidance of the teachers have enhanced the self confidence and morale of the students for better academic performance.

The Dept. of history of the college has a special place in the University. Dr. S.T Naidu the principal of the college has worked as the chairperson – BOE of history and also as the president of Kuvempu University History Teachers Association. Prof. D.S Somashekhar the present HOD of History also has worked as the Chairperson of BOE History of Kuvempu University and presently he is the president of Kuvempu University History Teachers' Association. Both Dr.S.T.Naidu and Prof. D.S Somashekhar have conducted a number of seminars at the University, state and National levels. Prof. Surya Naik, presently is a member of the Board of Studies of the University and he would be the Chair person of BOE of the University during the academic year 2011.

All the three teachers in the Dept. have attended several seminars and conferences at different levels and presented papers which have been published. Other than history, the teachers in the Dept. have associated themselves with the activities concerned with the society for the last so many years.

The publication of book titled' A spectrum of Culture' by Prof. D.S Somashekhar is well acknowledged in the academic circles. Dr. S.T Naidu the senior most teacher in the department and the principal of the college has been nominated as member of the Academic Council of the University and his selection as the president of Kuvempu University Private College Principals' Forum has brought a special recognition to the Dept. and college.

Ithihasa Mantapa (History Forum)

History is one of the important disciplines in the Humanities. It is being taught in the college ever since its inception in 1967.The awareness of History makes people more wise, cautious and foresighted in deciding the next steps of life for a better tomorrow. The teaching and study of History in the classroom is to prepare the students for the examinations, higher study cum research. This apart, actually there is much more to know as history for this subject is, curiosity wide and vast. The education under semester system is ladder with frequent tests, exams, valuations etc and therefore, students most of the time are busy with the formal syllabi. Under these circumstances, the teachers of the Dept, of History decided to establish a History Forum in the college known as 'Ithihasa Mantapa' to enhance the frontiers of knowledge of students.

'Ithihasa Mantapa' aims at giving more and usefully different stuff to the students of History. To put it differently, the Forum tries to motivate students to know what is there in their respective areas as unknown, less known history or materials of history, so that they would preserve such things of antiquity for the future prosperity.

ACTIVITIES : For the last 3-4 years students are actively involved in acquiring more knowledge about local history. With guidance they have been able to collect information about the monuments in a few villages. Some of the students have collected some old coins and numismatics is one of the sources of history, with the intention of preserving a local monument at Thirthahalli.town as Historical Monument – Mahatma Gandhiji had addressed the citizens, ... 1927 in this building during the Nationalist Movement- students submitted a Memorandum to the Tahasildar and peoples representatives requesting them to make proper measures for the protection of the movement in the wake of the threat of demolition of the monument on account of the proposed roads expansion on either side.

SPECIAL ACTIVITIES: The Forum, so far, has conducted a few special activities for the greater benefit of the students.

1. Dr. (Prof) Devara Konda Reddy of Hampi Kannada University gave a thought provoking lecture in 2009 on the evolution of the Kannada Script since thousands of years.
2. The History Forum jointly sponsored a days seminar on ' Shivatatva Ratnakara' an encyclopedic work of Basava Bhupata the Keladi ruler in 2008.
3. In 2007 while inaugurating the activities for the academic year, Prof(Dr.) Srikanta Kudige told the students to seriously consider folk materials for the better construction and under standings of history of any region.
4. In the same year (2007) Dr. Arunachala a practicing psychiatrist of Manasa Nursing Home- Thirthahalli gave a special talk as to how to prevent suicides and transform depressed people into life loving individuals.
5. In 2008, Mr. Simon from Toronto University Canada, during his stay in the college as a researcher gave two talks on the research methodology and the attitude of authorities towards students on the Toronto University Campus. In the end there was a question and answer session.

Academic activities of students in the classroom

In order to avoid monotony in the class room different academic activities of the students are tried frequently in the class rooms.

1. Students have done seminars on different topics relating to the subject and general aspects. Generally, at a time one boy and one girl are asked to present seminar papers one after the other.
2. It is a matter of almost a routine process that students will write at least two home assignments in each semester. This useful academic activity develops in them the writing habit and also help them in the preparation of notes on their own to a considerable extent.
3. Review of small books on history and matters of general interest is also practiced by students in the class rooms. This enabled them to acquire knowledge from different sources and perspectives. As a matter of good gesture the students who review books are encouraged with a small memento in the form of books.
4. Almost every month a feed back test is conducted in all classes to know the understanding ability of the students and to reconsider the mode of teaching for the easy and effective understanding of the subject by the students.

In a nutshell the intention of all the above academic activities is to enhance the level of self confidence and self esteem of the students so that if they go far higher studies their experience will be a rich one in public life. They will be more effective and more successful.

31. Any highlights:-

In order to enhance the knowledge of students about History, there is a 'History Forum' in the college known as "Ithihasa Mantapa'. Ithihasa Mantapa aims at giving more and usefully different stuff to the students of History. To put it differently, the Forum tries to motivate students to know what is there in their respective areas as unknown or less known materials of history; so that they would be motivated to preserve such things of antiquity for the future posterity.

Department of Management studies

The B.B.M Course was started in the year 2006-07 with a small but reasonable number of 30 students in a newly constructed building with all facilities such as, good class rooms, boys and girls waiting rooms, staff room computer facility, open access to small but useful departmental library computer with printer, telephone, electricity, drinking water, parking place and all such infrastructure were provided to the best satisfaction of the students and staff.

The first batch of students performed well both in the classrooms and the examinations. There was a 100% promotion from I year to II year. The second batch of 46 students admitted in 2007 also performed well with 100% promotion to the next year. The third batch of 33 students admitted in July 2008 is also a promising batch.

We are trying new methods of teaching giving greater opportunities to students. Students bare grouped into various "study groups" and the students exchange books, notes, study materials etc with in the group freely, exchange their ideas and thoughts, make joint study and skill development etc. Students are provided abundant opportunity to speak in class rooms concerning their syllabus.

2010-11	28	24	34	86

University has a set of rules regarding promotion to higher class. We are proud that our students have been securing 100% promotion year after year.

FACULTY:- There are two full time faculty members. The faculty is a combination of old and experienced and fresh and enthusiastic. The excess of work load to full timers is shared by guest lectures who have 20 or more years of teaching experience.

LIBRARY:- There is a departmental library with open accession system managed by students themselves; all students are subscribers to an English daily "Business Line" very useful to management students.

UNIFORM:- All the students are required to wear uniform blazers two days in a week.

PRAYER:- We begin the day with "National Anthem" every day. All teachers and students participate in it.

SPOKEN ENGLISH COURSE:- Spoken English Course is compulsory for all the BBM students. Classes are held on regular basis. Step by Step Solutions, Kumta, is conducting Spoken English Course. Tests are held at the end of the course and certificates are issued for those who successfully complete the course.

SPECIAL LECTURES AND SEMINARS:-

A good number of Special Lectures on personality development business etiquette, public speaking, event management, syllabus related topics etc are arranged for the all-round development of students. Each study group arranges seminars on topics related to syllabus.

INDUSTRIAL TOURS:- Industrial Tours are arranged to get the first hand information about the organization and management of industries.

TECHNOLOGY USED:- The faculties and students use tools like L.C.D and O.H.P. while doing their seminars and power-point presentation. Computers, OHP and LCD are used regularly to teach and train the students.

SKILL DEVELOPMENT:- Students are required to study local business and prepare project reports which enhance their skills.

ANNUAL MAGAZINE –'PROMISE':- With a view to encourage the students to write, an annual magazine 'Promise' is brought out every year. The students themselves collect the writings, edit and publish them.

CONTACT WITH OLD STUDENTS:- The department has a very good contact with the students passing out. A register is maintained to record the addresses and phone numbers of all the students. We collect information every year from all old students and file them. We arrange old students meet every year so that the present students can meet them and share their experiences of education and professional etc.

STYDY GROUP:- Study groups are farmed in each class room consisting of 5-6 students. A set of books and study materials are given to each group. They are advised to exchange them, prepare essays; notes etc and make group study, group discussions etc. Each group is required to make an LED presentation. This makes them to think independently and present their thinking in a systematic fashion

PUBLICATION:-

An annual magazine 'Promise' is published every year. Besides that a collection of Kannada poems called ' Usire' written by two of our students –Mr. Ajith T.N and Mr. Nandish T.G studying in III B.Com during 2009-10 was published. Students were required to sell 3 copies each. The revenue was used for meeting the printing and such other costs. The department proposes to bring out its own printed magazine year after year and also to publish such books that give an opportunity to students to write.
