# ***FOREWORD***

*College education is at the crossroads. It has to fulfil the double duty of equipping students to take on present challenges and inculcating enduring human values. Unfortunately, unlike in the past, these duties often clash with each other. The younger generation seems to believe that winning is everything. Colleges like ours, thus have a greater responsibility than professional colleges which train young minds for careers. Career orientation has to be coupled with value orientation.*

*Our college emblem suggests this theme- the test tube, the text book and the weighing balance, symbolising learning skills, are seen in the backdrop of the rising sun, which stands for the dawn of wisdom. We, at Tunga Mahavidyalaya, believe that we have done our bit towards achieving this. Since its inception in 1967, the college has witnessed many changes. We have never flinched in our efforts towards the realization of our goals and objectives. With total support from our staff and management led by Prof. K. Ganagadhar, the present president of Tunga Vidyavardhaka Sangha, the college has been able to make a mark in the region.*

*Now the time has come for us to gear up to tougher challenges of the fast changing times. Quality checks have to be built into the system so that we live up to the expectations and aspirations of the people around. To eschew complacency, or the worst enemy, slackness, we have to submit ourselves to rigorous scrutiny-internal and external.*

*I am happy to submit this self-study report to National Assessment and Accreditation Council for evaluation.*

## Criterion I
## Curricular Aspects

1. What is the range of programme options available to the students for awards such as degrees, certificates and diplomas?

*Tunga Mahavidyalaya is a general degree college offering courses leading to B.A., B.Sc., and B.Com., degrees. B.C.A. (Bachelor of Computer Applications) was started in 2001-02 considering the demand for software professionals. A Diploma course in computer Application was introduced at first independently and later in collaboration with NIIT. A number of non-formal courses at the college level (as for instance Spoken English Course) are available for the students.*

2. To what extent are the program options career oriented?

*Of the courses offered B.C.A. is a career oriented course. B.Sc., with computer Science as one of the core subjects and B.A. with Computer Applications as one of the majors are partially career oriented. Likewise B.Com is also a semi-career oriented course. B.A. and B.Sc., are basic degrees required for pursuing higher education leading to a career in education, administration, research, social service or management.*

3.Do students have flexibility to pursue a program with reference to :

1.Time frame: No. *It is fixed by the University.*

2.Horizontal mobility: No. *The university does not allow it owing to logistic problems.*

3.Elective options: *With a view to preparing the students to face the competition in the job market our institution has done some innovations. Ours is the only college in Kuvempu University to introduce a science subject like computer applications as a core subject for B.A. degree along with two other subjects - Sociology and Economics.*

*The college started as an Arts and Science college in 1967 and in 1972 B.Com was introduced keeping in mind the job prospects. Optional Kannada and optional English courses were later introduced. The most useful and advanced subjects are introduced for B.Com. For instance B.Com students are offered Fundamentals of Computer Technology during the I year,*

*Electronic Data Processing in Business during the II Year, and Business Data Processing during the III year as optionals. B.C.A. was introduced in 2000-01 considering the demand for soft-ware professionals. The attempts to introduce Library Science and Bio-technology courses was unsuccessful owing to poor response from students.*

*The students have the freedom to choose any two of the three languages - English, Kannada and Sanskrit as non-core options.*

4. How are the college mission and goals, if any (other than the general transmission and generation of knowledge), reflected through the curricula?

*The college was founded in 1967 with the goal of making higher education accessible to the youth in this backward Malnad region. Higher education for the needy for the development of the self and the society was the mission of the founders. Their vision was the transformation of society.*

*Revision of the programs, like for instance introduction of Computer Science for students doing B.A., B.Sc., and B.Com., courses to keep them abreast of the information age , is done whenever felt necessary. Courses offered at the college level like spoken English course and Computer Awareness Programme for other students are aimed at self-improvement. Academic and co-curricular activities like , seminars, talks by invited experts, workshops and cultural & sports events are designed to help the students develop their personality and for inculcating a sense of values among them.*

*The presence of a large number of well educated citizens in the taluk, the mark made by the ex-students of our college in various fields, the declaration of Thirthahalli as a Taluk with total literacy are some of the indicators suggesting the impact of our institution.*

5. Is there any mechanism to obtain feedback from academic peers and employers on the teaching programmes?

Yes ☐ No ☑

Scanned by Camera Scanner

*There is no such mechanism at the institutional level. However the members of the faculty take part in the meetings of Board of Studies (Kuvempu University) and workshops on Syllabus Design at the university and inter-university levels. There attempts are made to update the syllabus in line with the changing needs. The changing needs are perceived generally through the mass media with a sensitivity to social realities.*

*Our Employers (The Management) have always been sensitive and responsive to the growing need for new courses. We have been able to expand the range of programs as a result of their support.*

6. How long does it take for the college to introduce a new programme within the present university system ?

*It usually takes one year.*

7. Has the college introduced any new courses inspite of delay in university process?

Yes ☐ No ☑

If yes, give details.

8. Give details of college-industry-neighborhood networking, if any.

*Thirthahalli is a small town far away from the centers of industry. Hence a college – industry networking is not feasible.*

*It may be noted that we were the first institution in Thirthahalli to start a computer study center. We are happy to say that we were the pioneers in computer education in our area. The seeds sown by us have brought about a computer revolution in the Taluk. Many of our students are employed as computer instructors in the schools around Thirthahalli.*

Scanned by Camera Scanner

9. Furnish details on the following aspects of curriculum design :

1. Innovation such as modular curricula :

   *As ours is not an autonomous institution there is no scope for innovations such as modular curricula.*

2. Interdisciplinary /multidisciplinary approach :

*As already mentioned we have made a breakthrough in inter-disciplinary approach with the introduction of a science subject like Computer Applications for a section of B.A. students. The university has prescribed the study of Indian constitution and Environmental Science as compulsory subjects for all students.*

10. Any other highlights:

*The students are given the following need based courses.*

1. *Spoken English Course:*

   *This course is designed to help our students equip themselves with oral communication skills in English, so that they do not lag behind their urban counterparts.*

2. *Computer Awareness program:*

   *This course is intended to enable the students to acquire the basic and operational knowledge of the computers so that they can meet the demands of the job market in today's world.*

*A number of seminars, workshops and other programs of academic significance are held on various topics throughout the year. (please see Appendix for details) These are intended to help the students keep in touch with advances in their area of study and to orient them towards the pursuit of higher knowledge.*

## Criterion II

## Teaching – learning and Evaluation

1. How are students selected for admission into various courses ?

a) Through special entrance tests ☐
b) Through interviews ☑
c) Through their academic record ☑
d)Any other (specify)

*Selection of students is made according to Government rules. Seat allotment is based on reservation policy of Govt. Students are required to bring their parents at the time of admission. Students are advised about course content, future opportunities etc., before admission.*

2. a) Is there a provision for assessing students' knowledge and skills for a particular programme (after admission)? If yes, cite examples.

Yes ☐ No ☑

*However, after students join a particular programme, the teachers try to assess the students through informal interaction.*

b) Does the college provide bridge /remedial courses to the educationally disadvantaged students? If yes, cite examples.

Yes ☑ No ☐

*For B.Com., students who come from non-commerce streams, special coaching classes in Accountancy are conducted. Most of our B.Sc., students lack laboratory skills as they come from mofussil P.U. Colleges where Laboratory facilities are minimal . For them remedial classes in Laboratory skills are held at the beginning of the First year.*

c) How are advanced learners challenged to work ahead of the rest?

*By motivating them to join N.C.C., N.S.S. and various clubs & Associations meant for co-curricular activities. Every year we hold a grand " PRATHIBHA PURASKAR" ceremony where meritorious students are awarded prizes & incentives (see annexure- **08** ). Toppers of every class are given extra books from the library which can be kept till the end of the term. Advanced learners are encouraged to present papers on topics of interest. Interested students are sent as delegates to seminars & workshops held in other places. Teachers maintain a good rapport with advanced learners and try to encourage them in every possible way.*

Scanned by Camera Scanner

3. Does the college encourage the teachers to make a teaching –plan?

Yes ☑ No ☐

If yes, when and how is it made?

*After the introduction of semester system, to cope with the tight academic schedule, the college asked the teachers to prepare a teaching plan at the beginning of the year. The plan is prepared by taking into account the quantum of syllabus and the number of teaching hours available.*

4. Are syllabi unitised according to a teaching schedule through the semester/ year?

Yes ☑ No ☐

If yes, give details of implementation in terms of monitoring, mid –course correction, etc.

*At the end of every month, the teachers of the department sit together and review the curricular progress. If necessary extra classes are conducted to make mid-course correction.*

5. How does the college supplement the lecture method of teaching with other learner – centred teaching methods?

*Through group discussion, seminars, workshops and tutorial classes.*

6. Is there a centralized 'media' facility to prepare audio visuals and other teaching aids?

Yes ☐ No ☑

If yes, give details.

*Although the college does not have any facility to prepare A.V. materials, we use materials prepared elsewhere. The college has a T.V. / V.C.R, computers, O.H.P., slide projector and limited internet access.*

7. Furnish the following information (previous year) :

- ➡ Teaching days : 200
- ➡ Working days : 295
- ➡ Ratio of full – time teachers to part –time teachers : 35 : 3
- ➡ Ratio of teaching staff to non –teaching staff : 38 : 24
- ➡ Percentage of classes taught by full time faculty. : 97%

8. Are evaluation methods communicated to students at the beginning of the year?

Yes ☑ No ☐

If yes, give details.

*Details about examination procedure, evaluation method are explained to students in the beginning itself.*

9. Does the college monitor the overall performance of students to ensure the achievements of the course objectives?

Yes ☑ No ☐

If yes, give details.

*There are designated class-teachers for all the classes. Every teacher in the college is given complete charge of a specified class. He/She collects required data from time to time and keeps tracks of the performance of students of that class.* (see annexure- ***09*** )

10. How are teachers recruited? When and how are new teaching positions created? Give details.

*Till 1992, recruitments were made by a selection committee appointed by the Govt. Now the Govt. has stopped filling up vacancies in private colleges. Our college management, Tunga Vidyavardhaka Sangha, calls for applications in state level newspapers to fill up vacancies created. Vacancies are created whenever senior teachers retire or when new courses / programs are introduced. These temporary appointments are made by the management by forming selection committees consisting of governing council members, Heads of the department and a subject expert. The candidates are asked to give a demonstration lecture in the concerned subject before students and it is followed by an interview.*

14. Does the college follow the self-appraisal method to evaluate the performance of the faculty in teaching, research and extension?

Yes [✓] No [ ]

If yes, how are teachers encouraged to use the feedback?

The Principal and the academic council of the college advise the teachers about further improvement.

15. Does the college follow any other teacher performance appraisal method?

Yes [✓] No [ ]

If yes, give details of the same and state how the results of the appraisal are used.

*By supplying questionnaires to students. The feedback from them is analysed by the principal and conveyed to concerned teachers.*

16. Does the college conduct refresher courses/seminars/conferences/symposia/ workshops/programmes for faculty development?

Yes [✓] No [ ]

If yes, give details.

*The college conducts a number of seminars/workshops and conferences every year. A detailed list is given in annexure-* ***10***

17. Give details on a few faculty development programmes and the number of teachers who benefited out of them, during the last two years.

10. During the last two years did the college have a deficit budget?

Yes ☐ No ☑

Scanned by Camera Scanner

11. Is there an internal audit mechanism?

Yes [✓] No [ ]

Audit copy attached (see annexure-*17*)

12. What are the various welfare programs of the college ? Give details.

*There is a student welfare officer appointed by the government to address general problems of students. The welfare programs started by the college are as follows :-*

1. *Poor Boy's fund* : *Students coming from economically weaker sections can avail financial assistance from this fund.*
2. *Mid-day meal* : *Free lunch is provided to deserving poor students. About 70 students are given free lunch under this scheme.*
3. *There is a Group Insurance scheme for staff & students. Many students have been given compensation under this scheme.*

*Soon after the academic year begins, all the students are asked to fill out a printed sheet called ' Student Information Sheet'. Apart from giving other details, they are asked to point out specific problems/difficulties experienced by them. This information is collected by class teachers, processed and passed on to the principal who takes suitable measures to solve these problems.*

*General counseling / career counseling and medical aid are other facilities available to students.*

13. Is their a grievance redressal cell in the college?

Yes [ ] No [✓]

*There is no official grievance redressal cell as such. But as and when problems arise the management and the principal intervene to sort them out.*

*The management meets the teaching and non-teaching staff members at least once a year to learn about their problems and requirements . The governing council co-opts a senior teacher to represent the grievances of employees in its meetings.*

14. List the various loan facilities available to the members of the teaching and the non-teaching staff of the college. What are the requirements and the eligibility criteria necessary to obtain loans that are available?

*The college has a full-fledged staff co-operative society, which provides loans for the needy. There are short term and medium term loans available on soft terms. The maximum loan that can be availed is 10 times the basic salary. (See separate write-up on Society).*

15. Any other highlights

*We have a good, dynamic and responsive management. They have always stood by us in all our activities. They have taken great pains to mobilize funds to develop the infrastructure. They maintain a very cordial relationship with the staff members. The management body holds regular joint sessions where the suggestions and proposals of the staff are heard and received. Necessary funds are set apart for curricular and extra-curricular activities. Every department is encouraged by the management to take up developmental / extension projects. Seminars, work-shops, cultural meets, sports meets are conducted periodically with the active participation of the management. In true NAAC spirit, quality improvement has been the prime concern of our management.*

## CriterionVII
## Healthy Practices

1) Has the college adopted any mechanism /process for internal quality checks?

*Yes. The college has developed a number of mechanisms /processes for internal quality checks.*

*At the management level, there is a committee called The Academic Development Council, constituted solely for the purpose of planning, executing and supervising the academic activities of the college.*

*At the college level the following committees have been formed for the purpose of internal quality checks:*

*a). Admission committee, b). Timetable committee, c). Exam. committee,*
*d). Discipline committee, e). Gardening Committee, f). Cultural Committee*
*g). Sports Committee, h). Library committee, i). Canteen committee.*
*(see annexure-* **19***)*

*At the administrative level the principal of the institution is responsible for the maintenance of quality. He is the supervisory authority. At the classroom level there are class-teachers to monitor the quality of the students' performance at all the levels (see annexure-* ***09****). At the student level, the teachers are assessed by them twice a year by means of a questionnaire (see annexure-* **18** *).*

*Stock verification of library books, furniture & fixtures and other materials like computers etc., belonging to the college, is done annually by teachers as part of house keeping procedures. Annual auditing of the accounts of the College Staff co-operative society is done by qualified government auditors.*

2) Is the college sensitized to the latest managerial concepts such as strategic planning, team –work, decision –making and computerization?

*Yes, All the managerial concepts have been adopted at all the levels. The management consults the principal and the teachers regarding all the matters concerning the administrative and academic issues. At the college level all the academic tasks are planned and executed in consultation with the staff members and students. The principal convenes regular meetings of staff members 3-4 times*

Scanned by Camera Scanner

*every year to discuss & chalk out the academic & co-curricular activities of the college. Various committees are constituted to execute and monitor the activities. Special meetings are held before organizing special events like Prathibha Puraskar, Silver Jubilee Celebrations, Sports meets, important seminars etc., the details are discussed and worked out. Responsibilities & duties are shared in the spirit of team work. Computerisation of the college office and the library is in progress.*

3) Does the college have twinning programs, student exchange programs and MOUs with Industries and research organizations?

*Tunga Mahavidyalaya is not a city based college. It basically caters to the educational needs of village students. The traditional combinations offered by the college restrict such endeavours. However twinning program had been in place in a very limited sense. Our college had a tie-up with NIIT to offer latest computer courses in the campus. Due to poor response from the students the tie –had to be temporararily discontinued.*

4) What are the national /international linkages established by the college for training and research?

*As Tunga Mahavidyalaya is a rural college with limited financial resources it is seldom possible to have such linkages. Teachers have the opportunity to be trained through different means like orientation and refresher courses. Teachers have ample outlets for their academic betterment like UGC sponsored FIPs.*

5) How does the college strengthen the regular academic programs through other complementary systems like self –financing courses, non formal mode and distance education?

*The college has courses like BCA, B.A./(SECA) , B.com. (EDP) and Com-puter –science(BSC) which are partially financed. The college has a center of Karnataka State Open University stationed in our college. Those who cannot afford to study in the college regularly are benefited by this facility. We also have many student clubs like Humanities club, Science club, Commerce club and Literary club which offer non formal mode of education through lectures, seminars and workshops conducted by eminent persons and premier institutes like NINASAM, Indian Institute of Science, BJVS etc. The college also arranges special lecture programs by eminent scientists, thinkers & writers (see annexure-* **12** *).*

Scanned by Camera Scanner

6) What are the practices of the college to impart value based education?

*As seen in the emblem, "SHRADDHAVAN LABHATHE JNANAM" is the motto of the college. Translated, this would mean one who has discipline, faith, belief, trust and confidence gets knowledge. It is the endeavor of the college to inculcate the said values among the students. To imbibe the values we cherish, like discipline, perseverance, honesty, spirituality, sportsmanship and responsibility etc., we have evolved the following systems : -*

*Nisarga Sanga, N.C.C., N.S.S. , Sports , Birdwatchers' club, Sky watchers' club , Study circle, Kaleju Ranga (College Theatre), Anusandhana, Ikebana Club. The activities done under these different clubs/ associations promote values like love of Nature, discipline, patriotism, service, sportsmanship, cosmic view of life, team – work, co- ordination, aesthetic sense, love of art etc.*

7) How does the college inculcate civic responsibilities among the students?

*We strongly believe that it is the responsibility of all educational institutions to prepare the students not only academically but also socially. Our N.C.C. & N.S.S. wings are fully geared to inculcate civic responsibilities, through awareness programs like cycle expeditions to Jog, Kerala & Tamilnadu with specific messages.*

*It is enough here to say that the college has fought on environmental issues like "Save Tunga agitation" and social evils like online lottery.*

8) What are the efforts of the college towards the all-round personality development of the learners?

*The college conducts occasional PD courses in collaboration with NGOS like , Sri Ramakrishna Mission, Lions, Jaycees, Rotaract etc. Also the main thrust of the programs held under N.C.C, NSS & other clubs is development of a healthy personality.*

9) How is the college geared to achieve its specific goals and objectives?

*The main objective of Tunga Mahavidyalaya is to encourage the rural youth who are socially and economically challenged to join the mainstream of development and to make them competent to face the challenges of the modern times. The college aims to develop scientific temperament and human qualities among the students. The institution wants the students to be environmentally conscious and economically self –sufficient.*

Scanned by Camera Scanner

*All the students who come to our college seeking admission are given an opportunity to study. The majority of the students commute from remote villages. The college has an arrangement with the private bus owners so that students travel at concession rates. There is a mid-day meal scheme for the poor students who can't afford to pay for their lunch in the college canteen (see annexure-**20**). Poor students are given text books in addition to the number of books they are entitled to borrow regularly. So our mission has been, since inception, to see that no student is deprived of opportunity for self –improvement for want of funds.*

10) What are the efforts of the college to bring in "community orientation in its activities?

*1) Through National service scheme we arrange a number of activities to bring in community orientation. For example: NSS volunteers conduct economic and social surveys focusing on poverty and illiteracy.*

*2) Our college was a partner in the CDI project. The Campus Diversity Initiative (CDI) was a Ford Foundation funded project for community orientation. Various programs like culture festival, field survey, communal harmony drive were conducted under this banner (see annexure-**21** on CDI)*

*3) Know your village: (KYV) – This is a novel project taken up by the college. Here students & teachers select a particular village & conduct a socio –economic survey and collect historical, cultural data concerning the particular place.*

*4) Our students & teachers had taken out a Jatha called Bharatha Jana Jnana Vijnana Jatha which contained street plays, folk songs, folk dance etc. The theme was literacy, health and superstitions.*

11) Indicate the efforts of the college to promote general /transferable skills among the students such as (a) Capacity to learn, (b) Communication skills, (c) Numerical skills, (d) Use of information technology, (e) Work as a part of a team and independently.

Scanned by Camera Scanner

*The various clubs, provided for in the college and which have been listed above provide ample scope for the students to learn in various capacities. Debates, seminars and theatrical activities are conducted to enhance communication skills. Planning budgeting and accounting for the club activities are supposed to develop numerical skill among the students. Apart from this, the science club has arranged many talks for the improvement of students' mathematical skills. The use of information technology is incorporated in the university syllabus in such combinations as SECA, BCA, B.Sc. (Computer Science). Apart from these the college has also arranged many computer courses to be taught during the vacations.*

*The various Schemes like NSS NCC, Nisarga sanga, Kaleju ranga train the students to develop leadership qualities and they provide opportunities for them to transfer these skills. Sciencestudents directly participate in the 'Lab–to-village' program and demonstrate simple science experiments before rural high school students. (see annexure-* ***11*** *).*

*Students' council members are involved in all important events (academic, co-curricular) of the college.*

12) Any other college specific innovations which contribute to its growth.

*Nisarga sanga, Sky Watchers' club, Birdwatchers' club, Kaleju Ranga, study circle and extension activities are all the products of innovative thinking on the part of the college and these have definitely contributed to the sensitization, enrichment and empowerment of the college students. They equip the students to face the challenges of the days lying ahead with confidence.*

*We have a renowned cartoonist in our English dept. Who conducts classes in cartoon drawing. About 40-50 students have formed a Cartoon –club which meets weekly once.*

# Physical Education

Introduction : " A Sound mind in a Sound body" goes the saying. Therefore, any one can understand the importance of keeping one's physical and mental health throughout. These days health is being interpreted in terms of physical, mental and spiritual faculties. Physical health which is one of the components of overall health and a complementary one to the other two, can be attained through exercises, sports and games.

In fact, sports and games have contributed for the physical and mental evoluation of man, right from the dawn of civilization. In a nutshell, any ambitious nation or society can never afford to neglect sports and games especially for its younger generation.

**Human Resource:** Human Resource is one of the resources which contribute a lot for the progress and development of a nation. Sports and games are one of the measures in improving the quality of human resource. That was why long back Swamy Vivekananda had said that our students need to be taught in the football ground.

**India and the 21st Century:** It is said that the 21st century belongs to India. Well educated, rightly motivated and properly trained youth will be the asset and hope of future India. Sports, apart from orienting young men and Women physically and mentally towards achieving greater heights and reaching better goals in life, it also develops in them the attitude of sportive spirit.

**The need and use of sportive spirit**: Sportive spirit, often comes as an aid in absorbing the shocks of life. It is the very embodiment of broad mindedness and good heartedness which plays a wonderful positive role in human relations. Sports are often advocated as a solution to international problems specially between two hostile countries. The solution of sports, at times, will be more effective than political solutions.

**Sports and Games in Our College:** The realisation of the importance of sports and games has prompted the enlightened management, principal, the staff members and the public to promote the same in the college ever since its establishment in 1967.

**Speciality of Tirthahalli:** As per the census of 2001, Tirthahalli is one of the 33 Taluks in Karnataka in which women have outnumbered men. Obviously this sex ratio is manifested in the overall strength of our college also.

Scanned by Camera Scanner

Any way, girls and boys of our college can have equal opportunities in sports and games. But still, at times because of the strength factor, girls will be participating more in number than boys in many activities of sports and games.

**The challenge being posed by Nature:** Tirthahalli is located in the bosom of the Western Ghats and is placed on the lap of mother Tunga. Obviously the terrain is uneven and there are no natural play fields during the mansoon season from June to September due to lashing heavy rains. it is not possible to conduct out doors sports activities. Nevertheless our girls and boys have never lagged behind in their achievements, so far as sports and games are concerned.

**Rural background of our students:** Most of our athletes and sports persons hail from rural and agricultural background. Therefore, they have natural and inborn talents and they have outstandingly risen to the occasion, inspite of facing geographical challenges.

As Tirthahalli Taluk is famous in the literary and intellectual fields of Kranataka and Inda, so also it has a unique place in sports and games at the university, state and national levels.

**Mr. Eshan S.D. and Mr. Vikram M.N.** who are **nationally and internationally famous** in shotput and volley ball respectively are the alumnis of our college. For that matter, even **MS. Shaila E.B** who represented India in the 4 X 100 m relay in the Asiad, hails from Tirthahalli Taluk.

**Early caretakers of sports in the college:** Tunga Mahavidyalaya was started in 1967. Since then upto 1978 for a period of 11 years sports and games were looked after by several staff members of different faculties. Dr. G.K. Hebbar, Prof. V.R. Hegde, Dr. S.T. Naidu, Prof. Chandrashekar, Prof. Krishna Murthy, Mr. Kaniram (presently the Deputy Commissioner of Mandya District - Karnataka) and Mr. Nanjundappa (presently labor Commissioner in the Govt. of Karnataka).

**Present Physical Director:** The present Physical director of our college is Mr. K.S. Jagadish (Selection grade lecturer) and he was appointed in 1979. He is an alumni of our college and as a student he had specialised himself in Volleyball and athletics. He is a post-graduate in M.P.Ed and product of the prestigious university of Mysore.

**Infrastructure of Sports:** Ours is the lone educational institution being run by Tunga Vidyavardhaka Sangha. Therefore, the resources of the Management have been limited right from the beginning.

Scanned by Camera Scanner

But, the honest, hardworking, farsighted cum educated members of the Management have been able to provide the required infrastructure to sports to a satisfactory extent.

**Play Field:** As Tirthahalli is a Malnad region with heavy rainfall and uneven terrain, our college has not been fortunate to have a natural play field. Anyway, the Management has been able to create a Play Field in 1999. The present play field is spacious enough to lay tracks for 200 mt run.

It is in this field that athletics, volley ball, kho-kho, Throwball, Hand ball, Tennicot, Cricket, Kabbadi, Ball Badminton and such other sports activities are regularly conducted, of course, when there are no rains.

After the creation of this play filed we have been able to conduct inter college and university level sports and games meets in our college.

**The MAMCOS Sports Complex:** Tunga vidyavardhaka Sangha, the Management of the college, with the liberal financial help extended by the Malnad Arecanut marketing co-operative Society (MAMCOS) Shimoga, to the tune of Rs. 2,00,000-00 (Rupees Two Lakhs only), has been able to construct a 'Sports Complex' in the college recently.

At this juncture it is worth mentioning that even the timely contributions made by the ex. students, and students boosted the morale of the Management to take up the construction work of the much needed 'Sports Complex' which has cost approximately Rs. 6,50,000-00 (Rupees Six Lakhs and Fifty Thousand only).

This Sports Complex measures 40' X 70' constructed with hollow bricks and covered by sheets. In the same complex there is a volley ball cum Badminton court. Weight lifting activities also take place in this complex.

As the sports complex is adjacent to the play field, whenever sports, games, athletics and such other activities are conducted, students also use the same complex for warm up, rest and dining purposes.

**Other activities in the complex:** Whenever required the same sports complex is also used for other activities of the college i.e, academic, intellectual and cultural activities.

**Plan to extend the sports complex:** Our college plans to extend the sports complex further, for comprehensive sports activities.

**Ex-chief Minister's Visit:** For the extension of this 'Sports Complex' Mr. S. Bangarappa, the sitting member of parliament from Shimoga constituency and ex-chief Minister of Karnataka has promised Rs. 2,00,000-00 (Rupees Two Lakhs only) form the MP's quota and we hope to get the same shortly. Mr. Bangarappa had all his appreciation for the allround development of the college.

**Table Tennis Room**: There is a separate room for Table Tennis and it measures 15' X 25'. There is one Table Tennis Board set in this room and both boys and girls make use of the same.

**Sports Activities in the college:** We have been conducting all events in athletics, including hurdles and polovalt, group games like volley ball, Kabbadi, Kho-Kho, Table Tennis, Handball, Badminton, Ballbadminton, Tennicoit, Throwball, Cricket and indoor activities like Chess, Cherrum, Weight Lifting and Power Lifting are conducted in the college.

**Sports Room: Physical Director's office:** The physical Director of the college, of late, has been provided with a separate room measuring 10' X 20' in the main building of the college.

It is in this room that all the uncommon prizes, trophies, and laurels won by our students in sports, have been arranged. The purpose behind such an arrangement cum exhibition is to give a sense of achievement and to motivate them further for greater attainments in sports.

**Achievements in sports:** We are happy to say with pleasure and humility that there are several admirable and outstanding achievements to the credit of our college in sports and games.

1. **Sri. S.D. Eshan - International shot put player:**

Sri. S.D. Eshan s/o Duggapph Gowda - Shivapura (Koppa Taluk) is an ex-student of our college who studied I PUC Commerce (1979-80) in our college and got initial training in shot put in our institution. Later on joined the sports hostel in Bangalore and got good coaching in shotput. Subsequently, he got selected to represent India in the Beijing Asiads (Chaina) 1990. In the shotput event he secured the third place and won a Bronze Medal for India.

Presently, he is working for the Indian Railways and we have the pleasure of having provided him with the initial coaching in shotput which he used as a launching pad to come up in life.

**Mr. Azimuddin and International Kick Boxing Meet**: Mr. Azimuddin, a first year PUC Commerce student of our college took part in International kick Boxing meet that was held in Bangcock (Thailand). Public and students encouraged him very much by liberally donating him Rs. 40,000-00 (Rupees Forty Thousand only) to meet his expenses abroad. His participation in an International sports meet (abroad) indeed, has been a feather in the cap of Tunga Mahavidyalaya.

**Our college showing special interest in conducting sports meets / competitions:-**

Before 1999 we did not have our own proper play field. The only play field for the entire Tirthahalli Town was the play field of Govt. Junior college situated in the heart of the town. This was the place where all sports and games of the entire town were conducted. With the end of the rainy season there used be heavy rush in the play field of the Govt. Junior college. Even then our college took the lead as a matter of interest and commitment to conduct a number of sports meets to encourage and motivate our boys and girls in sports and games. Indeed, we remain thankful to the Junior college authority for they obliged us on several occasions.

The following are the most important sports meets conducted by our college after the appointment of Mr. K.S. Jagadish as the physical Director of our college.

1. 1980-81 - Mysore University level Sahyadri Zone Women's Meet - Group Games.
2. 1982-83 - Mysore University level Ball Badminton Selection Trials.
3. 1983-84 - Mysore University - Sahyadri Zonal Level Inter collegiate Women's Games.
4. 1989-90 - Kuvempu University Level Women's Games.
5. 1999-2000 - January - Kuvempu University Level ladies' Games.

During this sports Meet Mr. Eshan S.D. and Mrs. Roza Kutti were the guests of honour and were faliciated by our College.

6. Flood Light Volley Ball Tournment - 1992-93

Scanned by Camera Scanner

On account of the Silver Jubilee celebrations of our college, a flood light volley ball Tournment at the Kuvempu University level was conducted. It was very much liked and encouraged by the public also.

Our college volley ball Team had emerged as champions in the Finals of the Silver Jubilee Flood Light Volley ball Tournment.

Our strength in conducting Sports Activities: It is not easy to conduct sports activities, specially of higher magnitude without encouragement, help and co-operation.

Apart from our students being naturally talented, we are lucky to have been encouraged and helped by our enlightened Management, ex-students, general public and the media.

What we need: Anyway, we need to be provided with the facilities of Multi-Gym and Indoor games are to be given much more importance and encouragement.

After the bifurcation of the college into Degree and PUC sections, the duty and responsibility of the physical Director has increased. Therefore, he neds at least a parttime assistant.

Our boys and girls have held the Banner of our college and the Kuvempu University high in sports and games. And we hope to achieve much more with persistant efforts, help, co-operation and encouragement at all levels.
