1. 08-11-2024 – Bruhat Padayatra

The Nirmala Tungabhadra campaign / padayatra

The "Nirmala Tunga–Bhadra" campaign was launched to promote river-conservation for the rivers Tunga River and Bhadra River — upstream tributaries that join to form the Tungabhadra

As part of the campaign, a padayatra (foot-march) was organised beginning 4 November 08 2024 from APMC Market to Kushavati River Sringeri (in Thirthahalli Shivamogga from the upper reaches — traversing along the course of Tunga → Bhadra → culminating around the downstream region near the Tungabhadra course.

The aim is to raise awareness among local communities and authorities about river pollution, the need for sewage/effluent treatment, protection of catchments, and sustainable water-use, especially in face of growing contamination and misuse. So, the campaign tries to gather public support, highlight environmental and civic issues, and push for policy/administrative action.

The Nirmala Tungabhadra campaign, along with activists / environmental-groups / locals, is pushing for:

Sewage-treatment infrastructure in urban & peri-urban areas along the Tunga/Bhadra/Tungabhadra — to prevent untreated wastewater entering the rivers.

Protecting catchment forests and preventing deforestation / land-use changes, because forest cover plays a crucial role in maintaining water-quality and ecological balance in Western-Ghat headwaters.

Public awareness: educating communities about the importance of clean rivers, sustainable water use, avoiding pollution — using padayatra as a way to connect directly with villagers/towns along the river course. Governess body members, Principal, Staff, All NSS volunteers, Participated in this yaatra.
