Any suggestions for curriculum improvement:

8 responses

Prefer to Native history

Add new emerging issues

1.The syllabus is heavy and difficult to complete within one semester.

2. Students require more practical exposure through fieldwork, case studies, and hands-on training.

3. Skill-based modules should be added to make the curriculum job-oriented.

.

Include audio visual related syllabus contents in curriculum

Curriculum needs little more practical oriented.

Current curriculum needs practical implantation of sports

AI related curriculum is required
